LEARN ABOUT HOW THE ELECTRONIC RECYCLING ASSOCIATION (ERA) IS REDUCING ELECTRONIC WASTE AND REUSING UNWANTED ELECTRONICS EQUIPMENT through recovery, refurbishment and computer-donation programs.

Established in 2004, the ERA is a non-profit organization directed to reduce the environmental impact of improperly discarded toxic electronic waste by offering accessible services to help corporations and individuals manage their retiring IT assets. The ERA provides a full-circle solution for e-waste management — pickup, data removal, reporting / certification services, refurbishment, transfer to accredited recyclers.
